

Laser Teeth Whitening Coquitlam

Whether you are interested in enhancing your smile for cosmetic factors like enhancing your overall smile, tooth whitening is fast becoming a well-liked therapy option. Many of the things to think about while searching for the correct tooth bleaching procedure are fast and convenient treatments, long lasting effects, considered safe and those performed by a dentist.

A fast acting, very safe, and effective bleaching procedure is the advanced Zoom2! In-Office Whitening System. The therapy may be performed in less than one hour leaving your teeth remarkably whiter. Zoom2! bleaching is an optimal alternative for any patient trying to find instantaneous results. The comfort of Zoom2! makes it an excellent option for the busy individual when compared with the required weeks of wearing mouth trays for gradual whitening.

The light activated Zoom2! gel is formulated scientifically, to work with the Hydrogen Peroxide formula to gently enter into the teeth to get rid of the deep stains and discolouration.

The growing older process together with life-style choices can significantly darken and stain your teeth. Many of the things we do on a every day basis can lead to discoloured teeth, like drinking coffees, tea, sodas and red wines or smoking.
